

# Science Curriculum Documents

## Intent

At Mark, we believe science should spark curiosity, wonder, and excitement. As a village first school, we use our local environment as a starting point for discovery, helping children see themselves as scientists from the start.

Our science curriculum aims to:

- **Nurture curiosity:** Encourage children to ask questions, explore, and develop wonder about natural phenomena.
- **Build knowledge and skills:** Develop secure scientific understanding and the ability to work scientifically.
- **Make learning meaningful:** Connect science to everyday life, local contexts, and children's experiences.
- **Promote outdoor learning:** Use our village and surroundings as a living classroom for observation and investigation.
- **Encourage collaboration and resilience:** Give opportunities to work together, test ideas, and learn from mistakes.
- **Lay foundations for future learning:** Develop inquisitive, confident learners ready for the next stage of education.
- **Foster environmental awareness:** Inspire children to care for the environment, value the world around them, and recognise their ability to make a difference.

## Implementation

We follow the PLAN scheme of work throughout school, from pre-school and reception, through to Year 4, ensuring a clear progression for all children.

In Reception, children explore the world through observation, planting, water experiments, and outdoor activities, fostering curiosity with adult and child-initiated science.

In Key Stage 1, they build on enquiry skills by planning and conducting practical investigations about animals, plants, seasonal changes, forces, and materials, often through weekly or block lessons. Year 2 students begin predicting and reflecting on experiments to prepare for KS2.

In Key Stage 2, children undertake more complex investigations, including planning, analysing, and evaluating their work. Topics cover sound, light, electricity, life cycles, food chains, the digestive system, skeletons, the water cycle, and rocks, with lessons taught weekly or in blocks.

## **Impact**

Our science curriculum inspires children at Mark First School to see themselves as young scientists. Through hands-on investigations and regular outdoor learning, pupils develop curiosity, confidence and a strong understanding of the scientific ideas that help them make sense of the world.

Ongoing assessment ensures that every child is supported to make good progress. Children use scientific vocabulary confidently, apply their learning to real-life situations, and talk clearly about their discoveries and investigations.

By the end of Year 4, pupils show enthusiasm, resilience and independence in their scientific enquiry. They value the natural world, understand their role in caring for it, and leave our school well-prepared for the next stage of their science learning.

**“The important thing is to never stop questioning.” – Albert Einstein**

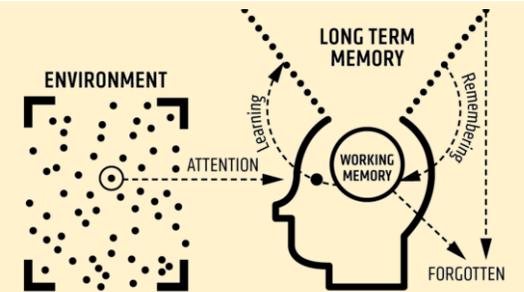

# Wessex Learning Trust Principles

## Strategic Aims

The Principles codify the shared language that contribute to high-quality, adaptive teaching and inclusion for all. Used routinely to bring the curriculum to life, the pedagogical principles support learning and progress over time. The Wessex Principles are not a linear planning tool, an expectation for every lesson or mandate a formulaic approach to lessons

## The principles aim to:

- Reduce cognitive load
- Encourage self regulation
- Provide regular opportunities to identify misconceptions or gaps in learning
- Ensure teaching is adapted to need
- Make learning explicit and transferable across the curriculum, beyond school into the wider community and wider world

Ready To Learn  
Routines

Linking Prior +  
New Learning

Focused  
Instruction '*I Do*'

Practise  
Learning '*We Do*'

Learning Check  
'*You Do*'

Consolidating  
Learning

★ Subject pedagogies are key ingredients to adaptive teaching, alongside effective formative and summative feedback to monitor progress.

★ Disciplinary and substantive learning is integral to any planned sequence of learning.

<h2>Ready To Learn Routines</h2>		<p>Ref SLC</p> <ul style="list-style-type: none"> <li>- Emotional learning environment</li> <li>- physical learning environment</li> </ul>	<p>Learning environments are safe, inclusive and welcoming. Relationships are positive and <b>love of learning</b> is promoted. Everyone <b>feels safe</b> to take risks and explore learning without judgement. Praise and rewarding effort is used to <b>motivate and engage</b>. A sense of <b>pace and challenge</b> is established from the start of the lesson.</p>
<h2>Linking Prior + New Learning</h2>		<p>Ref SLC</p> <ul style="list-style-type: none"> <li>- Pace of talk, clarity of instruction</li> </ul>	<p>Prior learning is checked and revisited to <b>strengthen connections and longer-term memory</b>. Know more, remember more. Planning ensures <b>new learning builds on prior learning</b>. <b>Vocabulary is explicitly taught</b> using the schools agreed pedagogies so that words are understood, contextualized and barriers to learning are reduced. <b>Problem solving and number skills</b> are revisited, retaught and applied in unfamiliar contexts to support deeper learning. <b>Gaps in learning and misconceptions</b> are revisited, including feedback and improvement tasks. Planning is <b>adapted</b> lesson on lesson so that core skills and knowledge are retaught where necessary. <b>Precision learning is explained</b> so that skills and knowledge are well understood, and misconceptions are minimised.</p>
<h2>Focused Instruction 'I Do'</h2>		<p>Ref SLC</p> <ul style="list-style-type: none"> <li>- Explicit teaching of vocabulary</li> <li>- Explicit teaching of listening</li> </ul>	<p>The steps to new learning are broken down into manageable amounts and <b>reduce cognitive load</b>. <b>High-quality explanations</b> are used to model thinking, decision making, and application of knowledge. Self-regulation is taught through <b>decision making modelled, visible and explicit</b>. Approaches to <b>getting unstuck</b> are taught and accepted as part of learning. Practical skills and strategies are modelled so that there is a clear understanding of <b>how to solve problems solve</b> and minimize misconceptions. Deeper learning is sequenced so that all learners can understand <b>each developing stage</b>. Learners know <b>what excellent learning looks like</b> and have success criteria to support their independent work.</p>
<h2>Practise Learning 'We Do'</h2>		<p>Ref SLC</p> <ul style="list-style-type: none"> <li>- Explicit teaching paired, small group talk</li> </ul>	<p><b>Guided practice and worked examples</b> are used to link new learning and decision making with prior learning. Formative assessment, including rich questioning, is used <b>skilfully to check understanding</b> and the impact of planned learning. Peer explanation + modelling scaffolds and <b>prepares for independent practice</b>. Learners use <b>expert thinking and talking</b> to explore deeper learning. Scaffolding and support (including TAs) is in place to <b>develop and build independence</b>.</p>
<h2>Learning Check 'You Do'</h2>			<p>Skills and knowledge are explored using a <b>variety of contexts</b>. Independent practice and application of learning (including homework) <b>builds confidence, self esteem and motivation</b>. <b>Metacognition and self-regulation</b> are developed over time. <b>Learning is consolidated</b>. Scaffolding and support is <b>reduced and removed over time</b>. <b>Feedback</b> is used to deepen learning and address misconceptions.</p>
<h2>Consolidating Learning</h2>			<p>Learner's plan, review and evaluate their progress <b>reflecting on what excellent learning looks like</b> and success criteria. <b>Next steps are identified</b> and used to <b>inform teacher planning</b> and develop mastery approaches over time. <b>Learning skills continue</b>. <i>Next lessons, rest of day, community, wider world.</i></p>

## National Curriculum and EYFS Framework

### Substantive Knowledge

Learning how to...

*What scientists need to know so they can collect, understand and evaluate scientific evidence (Working Scientifically)*

- Exploration
- Similarities and Differences
- Asking Questions
- Gather and record data and make observations
- Performing tests to answer questions
- Draw conclusions, make predictions and evaluate their work

### Disciplinary Knowledge

Learning about...

*The knowledge produced by science, the concepts which underpin the structure of science, such as evolution and the idea of force.*

- Plants
- Forces
- Animals including humans
- Materials
- Environments/ Habitats / Seasonal changes
- Evolution and Inheritance
- Rocks and Soils
- Light
- Electricity
- States of Matter
- Sound
- Earth and Space

National Curriculum Programmes of Study and EYFS Framework

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<p><i>Development Matters 4-5 Years:</i>                      Emphasis on exploration                      Beginning to describe what they see                      Beginning to see similarities and differences</p>	<p><i>consider how they can be answered</i>                      Starting to gather and record data, making close observations                      Performing simple tests to answer questions                      Note: Key Stage 1 are not expected to evaluate findings, draw conclusions or make predictions</p>		<p><i>Develop practical enquiries with greater complexity to answer own questions</i>                      Observations and measurements become much more accurate and findings/data are presented in a variety of ways                      Key Stage 2 pupils will draw conclusions, make predictions and evaluate their work.</p>			

Learning how to...

	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Plan	<ul style="list-style-type: none"> <li>Choose the resources they need for chosen activities - say when they do/don't need help</li> </ul>	<ul style="list-style-type: none"> <li>ask simple questions and recognise that they can be answered in different ways</li> </ul>		<ul style="list-style-type: none"> <li>ask relevant questions and use different types of scientific enquiries to answer them</li> <li>set up simple practical enquiries, comparative and fair tests</li> </ul>		<ul style="list-style-type: none"> <li>plan different types of scientific enquiries to answer questions, including recognise and control variables where necessary</li> </ul>

<b>Electricity</b>	FS1 • Explore how things work. FS2 N/A	N/A	N/A	N/A	<ul style="list-style-type: none"> <li>Identify common appliances that run on electricity.</li> <li>Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers.</li> <li>Identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery.</li> <li>Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit.</li> <li>Recognise some common conductors and insulators, and associate metals with being good conductors.</li> </ul>	N/A	<ul style="list-style-type: none"> <li>Associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit.</li> <li>Compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches.</li> <li>Use recognised symbols when representing a simple circuit in a diagram.</li> </ul>
<b>Tier 3 Vocabulary</b>					<ul style="list-style-type: none"> <li>Electricity, appliances, device, electrical circuit, complete circuit, diagram, circuit symbol, components, cell, battery, positive/negative, terminal, connect/connection, loose connection, short circuit, wire, crocodile clip, bulb, bright/dim, switch, buzzer, volume, motor fast/faster,</li> </ul>		<ul style="list-style-type: none"> <li>Electricity, appliances, device, electrical circuit, complete circuit, diagram, circuit symbol, components, cell, battery, positive/negative, terminal, connect/connection, loose connection, short circuit, wire, crocodile clip, bulb, bright/dim, switch, buzzer, volume, motor fast/faster, conductor, insulator, metal/non-metal, voltage, current, resistance.</li> </ul>
<b>Earth and space</b>	FS1 N/A FS2 <ul style="list-style-type: none"> <li>Explore the natural world around them.</li> <li>Describe what they see, hear and feel whilst outside.</li> </ul>	<ul style="list-style-type: none"> <li>Observe changes across the four seasons. (Y1 – Seasonal changes)</li> <li>Observe and describe weather associated with the seasons and how day length varies. (Y1 – Seasonal changes)</li> </ul>	N/A	N/A	N/A	<ul style="list-style-type: none"> <li>Describe the movement of the Earth, and other planets, relative to the Sun in the solar system.</li> <li>Describe the movement of the Moon relative to the Earth.</li> <li>Describe the Sun, Earth and Moon as approximately spherical bodies.</li> <li>Use the idea of the Earth’s rotation to explain day and night and the apparent movement of the sun across the sky.</li> </ul>	N/A
<b>Tier 3 Vocabulary</b>						<ul style="list-style-type: none"> <li>Earth, planets, Sun, solar system, Moon, celestial body, sphere/spherical, rotate/rotation, spin, night/day, Mercury, Venus, Mars, Jupiter, Saturn, Uranus</li> </ul>	

## Whole School Overview

Year Group	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
	Ourselves and Humankind	Culture and Diversity	Community and Citizenship	Exploration and Discovery	Expression and Creativity	Ourselves and Humankind
Preschool	Humans Seasonal changes	Light & sound	Environment Materials & forces	Environment Living things and their habitats	Animals excluding humans Seasonal changes Living things and their habitats	Humans
EYFS Seasonal Changes Throughout	Humans	Earth & Space Light	Materials inc changing state	Humans (healthy me) Living things & Habitats (plants)	Forces Sound	Animals (exc. Humans) Living things & Habitats
Year 1	Animals inc. humans	Human body and senses	Materials	Materials	Seasons	Plants
Year 2	Living things and their habitats		Materials		Plants	Animals including humans
Year 3	Rocks	Animals including humans	Forces and magnets	Light	Plants	
Year 4	States of matter	Sound	Sound/Electricity	Electricity	Living things and their habitats	Animals inc. Humans (teeth & digestion)
